KANNAPAREDDY GANDHIJI PAVANI REDDY

PROFILE

AIML undergraduate at Mohan Babu University with strong foundations in Artificial Intelligence and Machine Learning, Web Development. Experienced in building responsive web applications and machine learning projects through internships, coursework, and self-driven learning. Seeking entry-level opportunities to apply technical skills and contribute to innovative solutions.

Achievements

- Full - Stack Development:** Currently pursuing Full Stack Development training, building skills in frameworks like React, Express and web application design.
- Google Hackathon Participant:**Participated in a Google Hackathon, collaborating with peers to develop innovative solutions, enhance problem-solving abilities, and gain practical experience in teamwork and project development.

PROJECTS

Mini Project: E-Commerce Shopping App

Description:

Developed a responsive e-commerce platform using React. Implemented cart, wishlist, authentication, and product filtering. Integrated Firebase for user authentication.

Personal Portfolio Website

Built a modern portfolio website using HTML, CSS, JavaScript and React.

Implemented responsive design, dark mode, animations, and contact form integration.

Mini Project: Top 10 Restaurants in India

Description:

Developed a responsive web application titled “Top 10 Restaurants in India” to showcase India’s finest dining destinations with details such as location, cuisine, rating, and specialties. The project demonstrates skills in front-end web development, UI/UX design, and content presentation.

Implemented an interactive and visually appealing interface using HTML, CSS, and JavaScript, ensuring smooth navigation and responsive webpage. The website highlights practical application of web technologies to design an engaging, user-friendly platform for information sharing.
