PROFILE

I am a motivated B.Tech student with a strong foundation in programming and software development. I enjoy building projects that solve real-world problems and continuously improving my technical and analytical skills. I'm seeking an internship where I can apply my knowledge, learn from professionals, and grow as a developer.

PROJECTS

Mini Project 1: Portal Login Page

Description:

Developed a responsive and user-friendly login interface for a web portal using HTML, CSS, and basic JavaScript. The design includes input validation for username and password fields, and a password recovery link.

Mini Project: Top 10 Restaurants in India

Description:

Developed a responsive web application titled "Top 10 Restaurants in India" to showcase India's finest dining destinations with details such as location, cuisine, rating, and specialties. The project demonstrates skills in front-end web development, UI/UX design, and content presentation.

Implemented an interactive and visually appealing interface using HTML, CSS, and JavaScript, ensuring smooth navigation and responsive webpage. The website highlights practical application of web technologies to design an engaging, user-friendly platform for information sharing.
